

Summary

Full Stack Developer with over 3 years of extensive experience in architecting, building, and launching scalable web applications utilizing MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in frontend and backend development, demonstrating expertise in RESTful API integration, database architecture, and contemporary UI/UX principles. Committed to producing clean, maintainable code and embracing agile development practices, consistently delivering high-quality solutions in dynamic, collaborative environments.

Skills

Frontend:

- React.js (Hooks, Context API, Redux)
- HTML5, CSS3, JavaScript (ES6+)
- Next.js (optional if used)
- Tailwind CSS / Bootstrap / Material-UI
- Responsive & Mobile-First Design
- REST API Integration
- Webpack, Babel

Backend:

- Node.js
- Express.js
- RESTful API Design

Authentication (JWT, OAuth)

Error Handling & Middleware

Database:

- MongoDB (Mongoose)
- Firebase (if applicable)
- MySQL / PostgreSQL (if any RDBMS experience)

DevOps & Tools:

- Git, GitHub/GitLab/Bitbucket
- Docker (if used)
- PM2 / Nginx (for deployment)
- CI/CD (GitHub Actions, GitLab CI, etc.)
- Postman, Swagger (API testing & docs)

Experience

06/2022 - Current

Soft suave technologies - Chennai, India

Full Stack Developer

Designed, developed, and maintained scalable web and mobile applications using MERN stack.

Collaborated with cross-functional teams to gather requirements and implement responsive user interfaces.

Built RESTful APIs and integrated third-party services to enhance application functionality.

Oversaw full software development lifecycle from database design to frontend deployment.

Optimized application performance and managed version control with Git.

Ensured code quality through rigorous testing and comprehensive code reviews.

Projects

Esense – Smart School System

Tech Stack: React.js, Node.js, Express.js, MongoDB, React Native, Firebase

Built a comprehensive smart school system with three dedicated login portals for Admin, Teacher, and Student. Developed web apps for Admin and Teachers using React.js, and a cross-platform mobile app for Students using React Native. Integrated features like live online classes, assignment uploads, attendance tracking, and digital examinations.

Key Features:

- Role-based dashboards for admin control, teacher management, and student learning.
- Real-time online classes using third-party video integration (e.g., Zoom/Google Meet API).
- Digital exam submission and evaluation system.
- Push notifications via Firebase for class schedules and updates.

Education and Training

04/2018

Trichy Engineering College - Trichy
